

TOOLKIT

INTRODUCTION & TABLE OF CONTENTS

Last Updated August 18, 2022

INTRODUCTION

The fight against COVID-19 is more hopeful and productive due to the availability and efficacy of COVID-19 vaccines. Primary care practices and hospital systems are essential in vaccinating in Illinois.

The Illinois Chapter, American Academy of Pediatrics (ICAAP) in partnership with the Extension for Community Health Outcomes (ECHO)-Chicago at the University of Chicago and the Illinois Academy of Family Physicians (IAFP), created Illinois Vaccinates Against COVID-19 (I-VAC). I-VAC is physician led and is designed to support healthcare providers in integrating COVID-19 vaccine administration into routine patient care workflows in primary care settings, hospital urgent care centers, and upon hospital discharge. The goal of I-VAC is to ensure Illinoisians are being immunized at every opportunity and providers are prepared to immunize all eligible age groups. Leaders from each of these organizations are invested in I-VAC and welcome you to this toolkit.

DEDICATED TO THE HEALTH OF ALL CHILDREN®

"It's exciting for ICAAP to be a part of helping to guarantee that all residents of Illinois have equitable, easy access to COVID-19 vaccines. Making these vaccines a part of routine care makes sense and we are ready for this step. We have all been through so much during this pandemic, especially our children. We are pleased to be able to start looking ahead."

**ICAAP President
Mary Dobbins, MD**

"ECHO-Chicago has been a leader in the training of medical providers to address COVID-19 and is excited to use that experience and partner with ICAAP and IAFP to support providers in removing barriers and increasing access to COVID-19 vaccination across our great state."

**Founder and Director
of ECHO-Chicago
Daniel Johnson, MD, AFP's**

"The IAFP is thrilled to work with ICAAP in combating vaccine misinformation and overcoming barriers to providing the COVID-19 vaccine to our communities."

**IAFP President
Michael A. Hanak, MD, FAAFP**

CONTENTS

Section 1: Purpose of this Toolkit	1-1
Section 2: About the Toolkit	2-1
About I-VAC	2-3
COVID-19 Vaccine Bootcamps	2-4
Learning Collaboratives	2-5
Implementation Support	2-6
Vaccine Outreach Materials	2-7
I-VAC Podcast	2-8
Section 3: Becoming a Vaccinator	3-1
Why Vaccinate?	3-3
State Requirements for Vaccinating	3-5
I-CARE Registration	3-6
Vaccine Provider Enrollment in I-Care	3-8
Other Vaccinator Requirements	3-12
Training Staff	3-13
Staff Training Resources	3-14
Reimbursement for COVID-19 Vaccine Administration	3-15

CONTENTS CONTINUED

Section 4: Vaccine Ordering, Storage & Handling4-1

Vaccine Ordering	4-3
Determining How Much to Order	4-5
Ordering Vaccines Through Local Health Departments	4-6
Ordering Tools	4-7
Tips for Ordering.	4-7
Ancillary Kits.	4-8
Vaccine Shipment Packaging	4-9
Unpacking & Labeling	4-10
Storage & Handling	4-12
Organizing Vaccine Stock	4-18
Expiration Dates	4-19

Section 5: Vaccine Administration5-1

Preparation	5-3
Eligibility	5-4
Dosing and Scheduling	5-10
Vaccine Interchangeability	5-16
Administration	5-19
Post-Vaccine Process	5-23
Vaccination for Homebound Individuals	5-29
Next Dose Scheduling Tips	5-35
Standing Orders	5-36

CONTENTS CONTINUED

Section 6: Clinical Considerations	6-1
Expected Side Effects	6-3
Myocarditis and Pericarditis	6-4
Preparing for Anaphylaxis	6-5
Adverse Events & Reporting	6-7
Vaccine Administration Errors	6-9
Pediatric Vaccination	6-13
Immunocompromised Populations	6-14
People Vaccinated Outside the U.S.	6-15
People Vaccinated as Part of a Clinical Trial	6-18
Pregnant Populations	6-19
People with Disabilities	6-22
Section 7: Increasing Vaccine Uptake	7-1
Using Data to Identify Unvaccinated Patients	7-3
Using Your EHR to Identify Due/Overdue Patients	7-4
Using I-VAC Data to Identify Unvaccinated Patients	7-5
Using CDC Data	7-7
IDPH Data & Other Sources	7-8
Outreach Strategies	7-9
Engaging Community Partners	7-11
Medical Mistrust	7-12
Health Equity	7-15
Addressing Vaccine Hesitancy	7-16

CONTENTS CONTINUED

Addressing Vaccine Hesitancy – Among Staff	7-17
Addressing Vaccine Hesitancy – Among Patients	7-19
Using Motivational Interviewing	7-20
Reaching Special Populations.	7-22
Section 8: Additional Considerations	8-1
Hospital Settings & Urgent Care Centers.	8-3
Vaccines for Children (VFC)	8-5
