

COVID 19 VACCINES ARE SAFE & APPROVED FOR CHILDREN

CHILDREN WHO HAVE HAD COVID-19 SHOULD BE VACCINATED

COVID-19 VACCINES WORK!

MILD SIDE EFFECTS ARE EXPECTED

USUALLY DON'T LAST LONG & ARE NOT SERIOUS OR DANGEROUS

CHILDREN CAN GET MORE THAN ONE VACCINE AT THE SAME TIME! THIS IS A GREAT IDEA!

IT'S IMPORTANT FOR CHILDREN TO STAY UP TO DATE ON ALL VACCINES

VACCINES WORK BASED ON HOW A CHILD'S IMMUNE SYSTEM WORKS AT DIFFERENT AGES

CELLS LEARN HOW TO STOP GERMS THROUGH VACCINATION

VACCINES TRAIN THE IMMUNE SYSTEM

VACCINE INGREDIENTS ARE CLEARED FROM THE BODY VERY QUICKLY

PARENTS SHOULD NOT DELAY A VACCINE BECAUSE A BIRTHDAY IS COMING

VACCINES ARE AGE-APPROPRIATE. YOU DO NOT NEED TO WAIT!

CHILDREN WITH COVID 19 WHO ARE UNVACCINATED ARE MORE LIKELY TO BE HOSPITALIZED THAN THOSE WHO ARE VACCINATED

TALK TO YOUR CHILD'S HEALTHCARE PROVIDER IF YOU HAVE QUESTIONS!

CHILDREN HAVE MISSED ENOUGH SCHOOL, SPORTS, SOCIAL EVENTS, FAMILY, ETC, BECAUSE OF COVID-19. HELP THEM BY GETTING THEM VACCINATED

CHILDREN CAN DEVELOP LONG COVID, NEED ICU SUPPORT, AND DIE FROM COVID 19

PEDIATRIC COVID-19 VACCINES
