

Build Patient Confidence in COVID-19 Vaccines

New YouTube Resource Available for Your Patients

Introducing *Doctors, Patients, Facts*, a quick facts YouTube channel specially designed for individuals and families who need real, easy-to-understand, trustworthy answers to their COVID questions!

Make the Most of Your Appointment Time

Let *Doctors, Patients, Facts* Cover Frequently Asked Questions about COVID-19

Your time with patients is limited. Enter *Doctors, Patients, Facts*, a new YouTube channel developed in partnership with I-VAC, IAFP, and the Family Health Foundation of Illinois. Encourage your patients to explore our new channel to get expert advice from physicians in short one-to-two-minute videos.

Our videos cover all kinds of questions like:

- ? Who needs the updated COVID-19 Vaccine?
- ? I just had COVID-19 – do I need the updated vaccine?
- ? What is a variant of a virus?
- ? Can people get COVID-19 from the vaccine?
- ? Will I have to pay for my vaccine?

A Trusted Resource You Can Share

Rely on Our Community of Experts to Support Your Recommendations

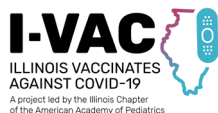

With *Doctors, Patients, Facts*, we seek to provide individuals and families with reliable, up-to-date information so they can make the best, most-informed decisions about their health. All our content is science and evidence-based and correlates with the CDC so you can feel confident sharing with your patients.

Our Channel Contributors Include:

Mustafa Alavi, MD
Daniel Johnson, MD, FAAP
Carl Earl Lambert, Jr., MD, FAAFP
Christopher Smyre, MD
